letter dated 17.3.26 at 7, states that the entire cost of the project namely Rs 41,610 for the construction of a road from Chitaldrug to Naikanhatti is proposed to be met by the Local Board as resolved by the Board at their meeting held on 30.3.26 and recommends that the same may be sanctioned subject to certain deviation in the alignment as suggested by the Vice President of the Board.

2 Kind ref is invited to the deviation in alignment suggested at para 2 of D.O. and also to paras 2 & 3 of the Vice President's letter.

3 The changes suggested are the acquisition of 10 or 12 acres of land & the construction of a culvert over the halla in S. No 94 & it is stated that the extra cost will be a few hundred rupees.

4 We may therefore recommend sanction subject to the deviation in alignment.

5 It seems desirable to consult the Chief Engineer before hand as regards the suitability of the suggestion and the extra if any that may be resulting.

NOTE—Contn. Sheet

on account of this the matter falls outside the pale of Council officials.

2. This question came up for consideration in connection with the estimate for the construction of shops in Cotton Road Street in the Dang city Fund at a cost of Rs 47440 to be met from Fund funds. In para 20 of the rules in the Council file Pl 45 of 25, the Secretary was of opinion that Cl x x of rule 6 Cl V of Council rules relates only to official works carried out by State revenue & not out of funds of local bodies. This was followed in 2 other cases. A & N were consulted however in this case. This procedure may has perhaps to be followed in this case also.

3. There is the question of sanction to the estimate. As regards this, the Resident Asst Ch says, the Vice President who inspected the alignment considers some change is necessary in the alignment. for about 1½ miles. As the project was prepared by the Chief Engineer he has perhaps to be consulted in this matter & this may be done unofficially perhaps to avoid delay.

A. (A) may be done. 28/7/26

The Dewan has agreed with my view that it is not a Council matter. (vide Flag A.)

LOCAL AND LEGISLATIVE DEPARTMENT,

BANGALORE.

Sir,

With reference to your letter No. L. 5711 L.S. 35-25-6 dated 2nd February 1926 enquiring whether the estimated cost of Rs 41,610/- for opening a new road from Chitaldrug to Naikanahatti via Thuruvanur in this District is proposed to be met wholly by the District Board, I have the honor to state that from the file of correspondence before me, it is seen that a project amounting to Rs 40,580 for opening a road from Chitaldrug to Naikannatti was countersigned and sent to the Executive Engineer, Chitaldrug Division with this office No. C. 765 L.S. 21-22 dated 8th April 1922, the District Board having resolved at their meeting held on 23rd March 1922 that "the project may be spread over for three years during which period the road upto Turuvanur may be completed and also provision may be made for the maintenance of the road" (vide copy of the resolution of the Board attached). It is not clear from the resolution that the Board have agreed to bear the entire cost of constructing the road from Chitaldrug to Naikanahatti from their own funds. I am, therefore placing the matter once again before the Board at their next meeting which is to come off on 30th March 1926 and shall forward their resolution in the matter in due course.

2. In the meanwhile, I request that the plan and estimate relating to the work may be kindly forwarded to me early so that the suitability or otherwise of alignment proposed may be looked into; as it is ascertained that no officer was deputed to study this aspect of the question on behalf of the District Board before the project

G. D. SECTION.

Nagappa, Esq., Bar-at-law,
CRETARY TO THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA
LOCAL AND LEGISLATIVE DEPARTMENT,
BANGA

Sir

In continuation of this office No. L 411 L. F. 25-2(March 1926 and with reference to your letter No. L 6166] dated 26th March 1926 re: the construction of a road fro to Naikanahatti at an estimated cost of Rs 41,610, I have state that the entire cost of the project is proposed to the District Board as will be seen from the copy of the r of the Board dated 30th March 1926 enclosed for referenc

It may be mentioned here that the Vice President of Board was asked to report as to the suitability or other alignment of the proposed road. After inspecting the s that the alignment of the proposed road for a length of between Chitaldrug and Kadabanakatte is fair and may be that the alignment for the remaining portion of the road of about 2½ miles between Kadabanakatte and Mustur is un since the road proposed runs in a low ground along the e track and is liable to be washed away during rains. He therefore, that the road between Kadabanakatte and Mustu a little to the west of the proposed alignment, along th 659 and 650 of Kadabanakatte and 99, 93, 94, 88, 89, 50, and 1 of Mustur since the road so taken will run on hard higher level, besides being also shorter in length (vide note of inspection furnished by the Vice President also reference). The change in the alignment suggested by t President seems to be very necessary and desirable in th

und work. It will not involve any large additional expenditure
e Board. All that is needed is the acquisition of a few more
of inexpensive lands and construction of a small cause way over
alla in S. No. 94 of Mustur village which may both cost a few
ed rupees which the District Board can easily pay in the interest
rk. Besides the proposed change in the alignment is only very
t and does not involve material alteration in the project already
red and consequent delay in undertaking the work. It may be
niently attended to while setting out the line during the exe-
n of the work even after the present project is sanctioned by
mment I recommend therefore that the present project may
y be sanctioned early subject to the deviation of the alignment
ggested above and necessary instructions caused to be issued to
nief Engineer to put the work in hand at an early date
In this connection it may also be mentioned that the road is
l the "Chitaldrug-Naikanahatti road via Turuvanur" in all offi-
correspondence. The term "Chitaldrug-Mustur road" seems to be
appropriate since the road from Chitaldrug merely joins the
ur-Naikanahatti road near Mustur.
he plans and estimates relating to the work received with your
of the 26th March 1926 are returned herewith.

I have the honor to be,

Sir,

Your most obedient servant,

S Srinivasa Ayyangar

President.

25

Note of Inspection of the proposed road from Chitaldrug to Mustur by the Vice-President, Chitaldrug District B o a r d.

-:0: -:0:-:0:-

With reference to the President's Memo dated 19th April 1926, the undersigned begs to state that he inspected the situation of the proposed road from Chitaldrug to Naikanahatti on the 7th and 8th of May 1926 and 5th of June 1926. It is the first in the programme of new roads to be undertaken from the District Funds, the urgency and importance of which is too well known to need any repitition here. According to the project prepared in the Public Works Department it starts from the Venkataramana-swami temple at Chitaldrug and runs due north to a length of about 18½ miles touching the villages of Gonur, Belagatta, Bagenahal, Koonabevu, Turuvanur and Kadabanakatte, to Mustur where it joins Jagalur-Naikanahatti road. The entire length of the road runs along the existing cart track shown in the village maps.

2. Alignment of the proposed road.--To start with, the road runs to a length of 2¼ mile as far as Gonur in soft soil in a low ground inclined towards the Gonur tank on the right side of the road. The road constructed in this track would be very costly to maintain. An alternative route that might be thought of is the one running in hard soil from the Forest Lodge through the villages of Pillekernahalli and Mallapura to Gollarhatti village and thence north-east to the proposed road to the north of the Gonur village. The road in this case will have to be taken necessarily on the Mallapura tank bund but the bund which is very narrow cannot admit of a road of sufficient width being formed thereon at a reasonable cost to ensure safety to the carts passing along the road. Thus the chances of avoiding the soft soil in a low ground altogether and taking the road in hard soil in a higher level are very little and it seems therefore that we have to rest contented only with the alignment proposed by the Public Works Department.

The alignment of the road proposed from Gonur to Kadabanakatte seems to be fair and calls for no remarks.

The remaining portion of the road viz. from Kadabanakatte to Mustur is situated in a low ground and runs along the existing cart track to a length of 2½ miles. Being situated in a low ground, it is apprehended

that the road will be washed away during the rain. The undersigned is of opinion that if the road is taken due north in the middle of S. No. 653 and along or by the side of the eastern boundary of S.Nos. 658, 659 and 650 of Kadabanakatte village and 99, 93, 94, 88, 89 and 50 of Mustur village and thence due north in S. Nos. 45, 46, 166 and 1 of the latter village to join Jagalur-Naikanahatti road, it would be decidedly a better one than the one proposed, since the road so taken will be in hard soil on a ridge and shorter in length too by about 2 furlongs. No doubt, the change in the alignment suggested will involve extra cost on account of acquisition of 10 or 12 acres of lands which are only poor and gravelly and construction of a cause way over the halla in S. No. 94 of Mustur village which may after all come up to a few hundred rupees; but this extra cost will be nothing when compared with the advantage gained in the reduction of cost of maintenance of the road in future years.

3. Another point to be considered in this connection is whether the connection proposed to be given from Turuvanur to Mustur on Jagalur Naikanahatti road serves the real needs of the public. The people of Turuvanur, Mustur, Naikanahatti and some other villages were consulted in the matter by the undersigned during the inspection of the proposed road. The people of Turuvanur represent that they have to go very often to Naikanahatti to meet their relatives there and also to Chellakere to do business there on shandy days, that the distance from Turuvanur to Naikanahatti in the existing cart track is only 9 miles and that the road now proposed from Turuvanur to Naikanahatti via Mustur is a round about one since the distance between these two villages according to the proposed road will be about 13½ miles--5½ miles from Turuvanur to Mustur and 8 miles from Mustur to Naikanahatti in the Jagalur-Naikanahatti road--and pray that a direct road be formed between these two villages along the existing cart track in -- preference to the proposed one. The existing cart track from Turuvanur to Naikanahatti runs in a hilly and barren locality with steep gradients here and there without touching any important village in the middle. The people of Naikanahatti are not very particular about the alignment. In case the prayer of the residents of Turuvanur is granted.

the extra length of the road to be provided for will be about 3½ miles which will cost the District Board an additional sum of Rs 7,700 at the rate of Rs 2,200 per mile as assessed by the Public Works Department or even more as the gradients are not easy. The people of Mustur and other villages in its vicinity and also the people of Kadabanakatte on the other hand are for the formation of a road from Turuvanur to Mustur as proposed. The undersigned is of opinion that the road proposed by the Public Works Department when opened taps the cotton growing tracts in the Chitaldrug and Jagalur taluks and in fact it will be a boon to the cotton growers in these tracts in as much as they can take their cotton and other products more expeditiously and easily to Chitaldrug than to Davangere for ginning or exporting, thus raising the importance of the District Headquarter town both industrially and commercially. In fact the people of the very village of Turuvanur which is situated in a cotton growing area will be most benefitted by the proposed road when opened. The necessity for giving a direct connection between Turuvanur and Naikanahatti pointed out by them is a small issue and deserving of no serious consideration.

4. The Nomenclature "Chitaldrug--Naikanahatti road via Turuvanur" given to the proposed road in all official correspondence seems to be rather mis-leading and it may therefore be got changed to "Chitaldrug Naikanahatti road via Mustur"

5. The proposed road on the whole seems to be fair and may be recommended for sanction, with a slight change in the alignment as suggested in the last portion of para 2 supra.

Sd/ M. Ananthia Setty,

Vice President,
Chitaldrug District Board

Copy

Ananthia Setty

for President.

Letter no.192 dated the 22nd November 1926 from the Executive Engineer, Chitaldrug Division, to the Superintending Engineer, Shimoga Circle.

Your no.230 dated the 1st September 1926 forwarding a file of correspondence regarding the opening of a road from Chitaldrug to Naikanhatti via Thuruvanur and asking for my definite opinion in the matter of suitability or otherwise of the deviation proposed by the District Board President,&c

2. Your subsequent reminder no.1554 dated 11th November 26.

In resubmitting the above completely I have the honour to enclose herewith a logitudinal section of the road along the proposed deviation from 7/16 to 2/19 together with some cross sections vide Rs.2 and 3.

In the logitudinal section sheet, the profile of the original alignment is also shown, hatched in pencil. A typical cross section of the road when formed is plotted for purposes of calculation of earthwork &c., in C.S.1. A comparative statement of the costs involved in the original and the proposed deviation bits is also enclosed vide E.3.

3.(a) It may be observed that in the original alignment there is a uniform fall from 6/16 to the end of the road 4/19, while in the deviation there is an unnecessary rise of 29' in a total fall of 109 feet with uniformly falling gradients otherwise. This renders the gradients unnecessarily steeper in deviation as compared with the original alignment.

(b) The original alignment will be nearly 2 furlongs longer than the proposed deviation, due to the falling contour adopted. The extra length is quite negligible; while it adds to have easier gradients.

(c) There will be a net excess of Rs 150 in adopting the deviation road, chiefly due to extra compensation to be

paid at the assumed price of 50 per acre. Otherwise, there is not much difference in cost in earthwork and other subheads between the two alignments.

4. In view of the facts mentioned overleaf the original alignment alone appears to be much better than the proposed deviation rather than vice-versa.

5. The estimates as already submitted and scrutinised may therefore be recommended for sanction.

OFFICE OF THE PRESIDENT, DISTRICT BOARD,

Chitaldrug, dated 2nd May 1927.

ENCLOSURES one resolution.

FROM

D. Srinivasa Iyengar, Esq., B.A.,
PRESIDENT, DISTRICT BOARD,
CHITALDRUG DISTRICT.

To

R. Ranga Rao, Esq., B.A., B.L.,
General Secretary to the Government of His Highness
the Maharaja of Mysore, Bangalore.

Sir,

With reference to your letter No. L. 6589 L.B. 35-24-14 dated 18th March 1927 re: the construction of a road from Chitaldrug to Naikanhatti, I have the honor to state that, in view of the circumstances pointed out by the Chief Engineer, the District Board resolve that they are agreeable to the original alignment of the road as proposed by the Executive Engineer and request that the work may be taken up and completed as early as possible, copy of the resolution of the Board being enclosed for reference. I accordingly recommend that the estimate already prepared and scrutinised for Rs. 41,610 may be sanctioned and the work ordered to be put in hand early.

The estimate and plans received with the letter under advertence are returned herewith.

I have the honor to be,

Sir,

Your most obedient servant,

S. Venkatadrapla
President. Dist Bd Shah
